Project Details

Title: Career Counseling website

Key Skills: HTML, CSS, JavaScript, PHP, MySQL,

Description: : The proposed solution focuses on implementing comprehensive career counselling and guidance programs in schools. This includes training career counsellors, developing resources and tools for career exploration, and integrating career guidance into the school curriculum. Programs should provide personalized counselling sessions, workshops, and access to information on various career paths and educational requirements.

Additionally, leveraging technology to create interactive platforms for career exploration can enhance student engagement and awareness. These initiatives align with NEP 2020's vision of equipping students with the knowledge and skills to pursue their career aspirations.

Role:- As a frontend developer and build AI chatbot with python

Key Technical Skills

*C++

*HTML, CSS

*Python
